COMMERCIAL BUILDING PERMIT APPLICATION

All contractors must present their current Georgia Contractor's License and a current business license from a Georgia municipality in order for a permit to be issued.

- \*Notes: (1) A separate permit is required for each and every building, suite or structure on which work is to be done. If building contains more than one unit, list the addresses of all units in which work will be done (submit a separate document if necessary).
(2) Exterior facade work must be approved by the Downtown Dev. Authority when in the D.D.A. district. Contact Jeff Chase at 770-974-8813.
(3) A copy of the "Cobb Co. Commercial Permit Application Form" approved by the Fire Marshal must be submitted for all commercial permits.
(4) You must schedule a Zoning final inspection prior to the completion of the job. Contact Christine Dobbs at 770-974-2032.
(5) You must also schedule a Public Works final inspection prior to the completion of the job. Contact Richard Beard at 770-975-0679.
(6) Reinspection fees are \$50.00 for each occurrence, on each trade.

\*\* The issuance of this permit does not guarantee the approval of an Acworth Business Licenses to the business owner! Please submit the Business License application, and verify its approval, prior to obtaining any permits. \*\*

Work Commencing Without a Permit: Where any work for which a permit is required is started without such a permit having been issued, the applicable fees shall be doubled. (This includes permits for Building, Electrical, Plumbing, Mechanical, Gas Etc.) The payment of such a double fee shall not relieve any persons from fully complying with the requirements if all applicable codes and City Ordinances including on work already performed, concealed or otherwise not inspected, nor shall it relieve them from any other penalties as may be prescribed by law.

Expiration of Permits: All permits expire 6 months after the last required inspection that has been passed, or 6 months after the date of issue if no required inspections have been approved. The Building Official may issue a 6 month extension if any permit, (for due cause), if requested in writing by the permit holder prior to such a permit expiring.

I hereby certify that I have read and examined this document and know the same to be true and correct. All provisions of laws and ordinances governing this type of work will be complied with whether specified herein or not. Granting of a permit does not presume to give authority to violate or cancel the provisions of any other state or local law regulating construction or the performance of construction.

Revised 10-9-2015

DATE
SIGNATURE OF CONTRACTOR OR AUTHORIZED AGENT

**Envelope Tightness Verification:** \$150.00 for each test. \$100.00 per hour to diagnose the worst areas of air leakage upon request (not required). Re-evaluating after initial test failure shall be at the same original cost(s).

**The Envelope Tightness Verification shall be performed along with the required Duct Tightness Verification, together during one inspection. If called for separately, additional fees shall apply.**

The provisions of the Georgia State Minimum Standard Energy Code, as adopted and amended the Georgia Department of Community Affairs, shall regulate the design of building envelopes for adequate thermal resistance and low air leakage, as well as the design and selection of mechanical, electrical, service water heating and illumination systems and equipment that will enable the effective use of energy in new building construction. **Any duct or envelope tightness verification or testing required by this Code shall be performed by the City of Acworth Building Department.** For due cause, the Building Official may hire or allow an outside contractor to perform such testing. If a builder, owner or contractor elects to perform (or hires an outside contractor to perform) any such duct or envelope tightness verification / testing, the results of such testing shall not be made mandatory upon the Building Official for his acceptance as meeting the requirements of this Code. The building and/or heating and air conditioning contractor shall be charged fees for such duct and envelope tightness verification / testing in accordance with the permit fee schedule on file with the City. Failures in meeting the provisions the Code concerning duct and envelope tightness shall result in the testing being required to be performed again, after corrections to deficiencies have been made, and a re-inspection fee in the original amount has been paid. Upon request, and upon the payment of an additional fee, the Building Department shall perform analysis to attempt to determine the cause of the failure of a duct tightness and / or envelope tightness tests.

**The air tightness of the building, dwelling or dwelling unit(s) shall be performed in accordance with Code and after all rough-in inspections have been approved, after the installation of all exterior and interior wall coverings and after installation of all penetrations of the building envelope, including doors and windows and penetrations for utilities, plumbing, electrical, ventilation, combustion appliances, etc.**
